ABOUT ME

I am a 19-year-old, second-year Computer Engineering student focused on software development and data science. I develop individual projects in object-oriented programming, algorithm design, UI design, and API-based data integrations. I aim to bring my enthusiasm for software architecture and data analysis into real-world problem-solving work.

SKILLS

Time Management
Analytical Thinking
Innovative Approach

LANGUAGES

Turkish
English (B1)

KAHRAMAN EFE ERDEN

COMPUTER ENGINEERING STUDENT PROJECTS

Parkur Rush - Unity, C#
2d Blackjack - Unity, C#
Nutrition Management and Calorie Tracking System - PyQt5
Stock Management System - Python, OOP, API
Personal Website - HTML, CSS (GitHub student domain)
My Day - HTML, CSS, JS, React
Admin Dashboard Corporate Engineering Website - ASP.NET (Domain)

SKILLS

C# (Unity, Console)

HTML & CSS

JavaScript

React

Python (OOP, PyQt5)

SQL

SQLite
